VINCENT HOUSE

"A community caring for the body and soul of our terminally ill"

Annual Appeal 2019

In today's times it is important to take a moment to be present and notice what is going on around us. This year at Vincent House we have taken time to expound on the concept of humanity- *compassionate, sympathetic, or generous behavior or disposition: the quality or state of being humane.* We have brought a focus to discussions with volunteers and families to be present and appreciate what is going on here at the house.

- Reuniting a resident with his band members for "one last gig"
- Taking care of a fellow volunteer
- Witness a brother and sister make amends after 5 years of not speaking
- A family trusting us after we took care of their mother to also care for their father
- Making it comfortable for family to stay with their loved one
- A sister who remembered "How beautiful it was up there" and wanted to be in the same room her sister was in.

These are just a handful of examples of what goes on at Vincent House on a daily basis. There is plenty of humanity out there, right in your own backyard......you just have to be present to notice.

Annual Appeal Goal
$50,000

We are proudly entering into our 20th year serving our amazing community. The year 2020 will be a milestone, marking our 20th anniversary. We have some exciting projects planned for the upcoming new year-so stay tuned! We need your help to raise funds to keep the house in operation. The ONLY funding we get is through private donation. We receive no reimbursement from insurance, Medicare, or Medicaid. 100% of all donations are used here at Vincent House.

Thank you for your commitment! We are counting on your support, as are those who depend on Vincent House's long-term efforts.

Sincerely,

Kimberly A. Snyder RN, BSN
Executive Director

Thank you!
